Couples & Family Therapy Program  
*University of Oregon*  
Clinical Hours Statement of Completion

This must be completed for graduation clearance. The Degree requirements of the Couples and Family therapy master’s program include completing 400 client contact hours (including individual and at least 200 relational) and 80 hours of individual and group supervision. The Graduate School cannot award the degree until they receive verification from the program that all degree requirements have been completed. This form does not replace final hours reporting, but serves as a mechanism to report hours AS SOON AS the minimum are completed for the Statement of Completion of the clinical hours requirement.

As stated on your Monthly Client Contact Reporting Form, to qualify for graduation: 

- **a** must be over 400;  
- **b** must be over 80;  
- **c** must be over 40; and  
- **d** must be over 200. Alternative client contact hours may not exceed 100 hours, of which only 75 may be relational.
